18th May 2020

Dear Parents,

Here we are at Monday again – I hope you had a good weekend.

Remote learning tasks have been uploaded for the coming week – these provide information from your child's teacher to help guide learning in a range of subjects / topics.

Additional materials from 'Classroom Secrets' have also been uploaded and I am in the process now of uploading the RE materials for the week. Mrs Brown has adapted the key aspects of this term's learning so that they can be completed at home.

I will shortly be updating the activity links and adding a few more for our younger learners and I am reviewing additional resources for older pupils. I will ask Mrs Bennett to send through an email as and when new materials are available.

My Headteacher Challenge this week is to start to grow something; this could be a vegetable or a flower – if you can from seed. Let me know what you start and keep a diary of the changes you see (this could be photographs). At the end of the Summer Term we will have a look at how everyone has got on. This weekend I planted some courgette seeds and will be keeping a close eye on them over the coming weeks.

Parents of children in Reception, Year 1 and Year 6 if you haven't already done so could I ask you to please complete the questionnaire / survey sent home last week regarding the possible re-opening of schools on 1st June 2020. This will help us to forward plan.

I will be updating you on some changes/add-ons to our remote learning offer towards the end of this week.

Seems strange to say that **half term** is next week – but it is. Teachers will not be setting work – although school will be open to support our keyworker parents for some of the days.

Have a good week – the weather is looking like it is going to be great so lots of opportunities for outdoor learning.

With best wishes,

Sue Elliott
Headteacher
