

FRENCH

Children will continue to study elements of French culture. They will practise how to greet and say goodbye in different ways. Children will continue to learn about school in France and describe the rooms, equipment and activities you may find there.

MATHS

Children will focus on developing written methods for addition and multiplication. They will use their skills to solve problems.

They will continue to develop the key skill of reasoning with numbers and expressing this reasoning verbally and in writing.

ENGLISH

Children will study the poem "The Highwayman" and use this to develop their writing skills. They will focus on using a wide range of grammatical devices and authorial techniques as well as accuracy of spelling and handwriting. Children will complete their study by writing an independent poem using the skills learned. Children will analyse the features of non-fiction writing (for example scientific writing) and learn how to develop this in all curriculum areas.

READING

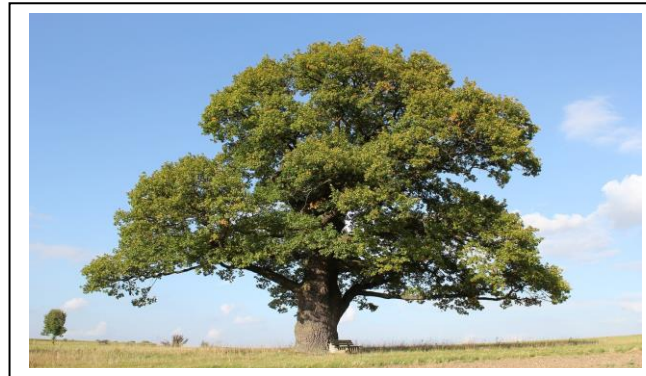

Children will study a range of books and learn to analyse them. They will express their understanding verbally and in writing.

SPELLING

Children will refine their understanding of spelling patterns appropriate to their year group, ensuring sound understanding of each word.

P.E.

Children will develop their ball skills through refining specific techniques and applying them in a range of ball games.

Oak Class – Curriculum Map – Term 2

SCIENCE

Children will study the topic of "Earth and Space". Pupils will learn about the solar system; what it contains. Children will describe why we have night and day, the phases of the moon and how we prove that planets are roughly spherical.

History:

The children will study the Tudor monarchs with a focus on the wives of Henry VIII. They will study and evaluate the importance of the period in changing aspects of UK society.

DT

Children will develop their planning and design skills by making a scale model of the solar system. They will identify appropriate tools and materials for the task taking into account the properties of each planet. They will critically evaluate the success of the completed task.

R.E:

Children will study Incarnation. They will explain connections between biblical texts and the idea of Jesus as Messiah using theological terms.
