

Headteacher's Writing Challenge

Newton Class / Year 2

Write a sentence using each cube.

For example

A magnet can be used to test if an object is magnetic.

Or

The boy was drawn, like magnet, to the sweet shop.

Year 2 - 3

Write an imaginative story using 6 of the cubes.

Year 4-6

Your story should contain all 9 cubes and use a range of adjectives, verbs and adverbs. Remember to check your writing makes sense.

I will have 3 prizes up for grabs (which I will send you in the post) for the most impressive writing.

Email your story to me at headteacher@penshurst.kent.sch.uk
